## LEARNER VOICE

Some of our learners have been telling us about how important on-line courses have been over the last year.

**Learner P,**  
*Realise Futures*

"I was so pleased when I went to class. With the lockdown it has helped me a lot, finding out about things that have changed so much. My car MOT changed, when rubbish bins would start again, sending photos to my boy in the States...I did send one by mistake with me in my face mask to a holiday booking that was made...They wondered what I was doing...Gave them a laugh 😊 Play lots of games, it helps me to relax instead of watching doom and gloom on TV"

---

"I have an old second-hand tablet at home and wanted to learn more about how to properly use it... My newfound knowledge and confidence will now help both me and my husband in the future, although it has made me more confident with online shopping, so I can now read my electricity meter online and can sort out payments...It's given me options and that's what it's all about as you get older isn't it?" "Because I live with COPD, I was only able to make 8 of the 10 sessions; this hot weather has made my breathing difficult. I had never even switched on a tablet or a computer before this course; I was egged on by my children. I really want to learn... I am so pleased to have done this, and to have a tablet of my own at the end of it is just marvellous."

## **Suffolk** LATEST UPDATES County Council

- **Community testing centres:** These sites offer Lateral Flow **COVID-19 Testing for people who cannot work from home and do not** have symptoms of Covid-19. The test process takes about 15 minutes with the result provided via text within an hour. People are advised to get tested at least twice a week. At the moment, those who work from home should not leave home to get tested, unless they have symptoms.

Regular testing has a very significant role in helping Suffolk live with and manage Covid-19. One in three people who have Covid-19 have no symptoms at all, so regular testing is vital in breaking this invisible chain of infection.

For further details and to book a test, visit the [COVID-19 asymptomatic testing webpage](#). There is also a YouTube video presented by Stuart on community testing. This can be found on the [SCC YouTube channel](#).

- **Latest SCC Guidance on Coronavirus (Covid-19):** Visit our website on how to check central government and NHS advice, plus answers to common questions about COVID-19. [The Suffolk County Council COVID-19 website contains some frequently asked questions and is updated regularly](#)

- **Suffolk County Council launches a new website to support sustainable travel:** The Way To Go Suffolk website provides information and advice on walking and cycling, public transport, car sharing and electric vehicles and features up to date information on how people can travel more sustainably across the county: [The Way To Go Suffolk](#)
